

WILLIAM GALVIN

Toronto, ON | (705) 446 5576 | liam.galvin@bell.net | williamgalvin.me

Driven and detail-oriented software developer currently pursuing a Bachelor's in Computer Science. Skilled in multiple programming languages, with hands-on experience in web/cloud technologies as well as low-level and mobile development. Founder of a computer science club and an educational business teaching programming. Mentor to various younger programmers.

EDUCATION

09/2023 – Expected 2027

Honours Bachelor of Science, Computer Science (Mobile Computing)

Sheridan College, Oakville

EXTRA-CURRICULAR ACTIVITIES

Workshop Team Member, Google Developer Group on Campus

- Plan and lead workshops focused on technical skill development and career growth for student developers.
- Collaborate with campus leaders to build community through events, speaker sessions and peer, mentorship.

Founder & President, Computer Science Club

- Started and led a Computer Science Club focused on teaching coding and preparing members for the Waterloo CCC (Canadian Computing Competition). Organized weekly meets, workshops, and mentorship sessions to foster a collaborative learning environment.

Founder, Ontario Summer Company

- Secured an Ontario government grant to launch an educational business teaching coding, where I organized weekly bootcamps with hands-on activities to teach fundamental programming concepts to children, mentored advanced programmers, and received valuable mentorship to help grow and refine the business.
-

WORK EXPERIENCE

06/2025 - Current

Sales Intern | TransPerfect | Toronto

- Manage and grow enterprise accounts for global clients, ensuring quality and retention.
- Handle quoting, transactions, and delivery logistics with precision and attention to detail.

12/2019 – 03/2025 (Seasonal)

Senior Ski Instructor | Blue Mountain Resort / Craigleith Ski Club | Town of Blue Mountains

- Instructed all ages of children and adults. Responsible for skills development and safety of all students.
- Mentored junior ski instructors, providing guidance on teaching techniques, safety protocols, and professional development.

DEVELOPMENT EXPERIENCE

- Created a diverse range of personal projects, each exploring different complexities and utilizing various programming languages and concepts. Visit my portfolio at **williamgalvin.me** to explore my work and get a deeper understanding of my skills and approach as a developer.
